PROGRAMING & SAFETY INSTRUCTIONS

RATINGS

Rated Voltage:
125VAC, 60Hz, 15A
Tungsten & Resistive, 1 HP
Max.Loading: 1875W

WARNING

- Electrical shock hazard
- Risk of injury or death
- Risk of fire
- Use a grounded outlet
- Follow local electrical codes
- For indoor use only

SET UP CLOCK

- Turn the dial clockwise and align the current time with the black arrow ▲. (Fig 01 = 11:00am)

PROGRAMING / SCHEDULE

- Push down a single **PIN** for every 15 minutes of **ON** time. (Fig 02)
e.g. If you want the timer to give power between 11:00 and 12:00, push down ALL four pins between 11:00 and 12:00.
- Plug timer into the wall outlet.
- Plug the pump into the timer outlet.

MODE SELECTION

- Slide the timer switch **DOWN** to activate the timer. (Fig 03)
 - Power will now turn **ON** according to **PIN** configuration.
- Slide the timer switch **UP** to deactivate the timer.
 - Power will always be **ON**.
